

# HEALTH OCCUPATIONS I & II

**A two-year program that implements two state curriculums, Health Occupations (CORE) and Nurse Assisting**

- Skills & Theory is designed to prepare students to render care in a variety of health care facilities as a nursing assistant. The program builds on skills and theory acquired through CORE care. For example, the course comprises of entry-level skills related to anatomy and physiology, and frequently seen abnormal conditions.
- In conjunction with supervised clinical experience, this course prepares efficient and caring members of health care teams.
- Students' participate both years in clinical settings at hospitals, nursing homes, physicians' offices, clinics, insurance companies, and community agencies.
- Curriculum includes commencement level math and English language arts.
- All students are given the opportunity to participate in a Work-based Learning experience, which exposes them to the operation of a business and specific job duties related to careers in their CTE area. This internship is designed to connect the skills and knowledge learned in the CTE classroom with the real world requirements of a business.
